## 1 G-Analyzer

- Short introduction of inos
- Introduction Software G-Analyzer
- Presentation of the most important used measurement algorithms
- Data sources
- Configuration of new views
- Introduction in process analyze possibilities

**inos** Automationssoftware GmbH  
Registration Court Augsburg | HRB 9372  
VAT-ID: DE 812273528

Managing Director:  
Ralf König

Advisory Board Chairman:  
Sonja Grenzebach-Proeller

Deutsche Bank Stuttgart  
Bank Code 600 700 70  
Account No. 16 16 150  
IBAN: DE33600700700161615000  
SWIFT: DEUT DE SS

## **2 G-Gauge**

### Basic Training:

- Short introduction of inos
- Introduction production software G-Gauge
- Explanation G-Gauge system and measurement principle
- Used hardware
- Presentation of the most important used measurement algorithms
- Troubleshooting incl. the topics re-positioning of a sensor and PC exchange (theory)

### Maintenance Training :

- Short summary of the basic training
- Sensor exchange (practical)
- PC exchange (practical)

### Expert Training:

- Short summary of the basic training
- Commissioning, Sensor registration & correlation
- Process characteristics
- Introduction analyzing software G-Analyzer (if available)
- Introduction configuration software Maestro
- Parametrization of image processing with Maestro with examples
- Practical exercises at the system
- Troubleshooting
- Open questions on the Inos-System

### **3 G-Guide**

#### **Basic Training:**

- Short summary of the basic training
- Introduction production software G-Guide
- Explanation Best Fit System and assembly process  
(including the topics Offset calculation and entry)
- Used hardware
- Presentation of the most important used measurement algorithms
- Troubleshooting incl. the topics re-positioning of a sensor and PC exchange (theory)

#### **Maintenance Training:**

- Short summary of the basic training
- Sensor exchange (practical)
- PC exchange (practical)

#### **Expert Training:**

- Short summary of the basic training
- Commissioning and training
- Offset entry and process characteristics
- Introduction analyzing software G-Analyzer (if available)
- Introduction configuration software Maestro
- Parametrization of image processing with Maestro with examples
- Practical exercises at the system
- Troubleshooting
- Open questions on the Inos-System

## 4 G-Verify

### Basic Training:

- Short summary of the basic training
- Introduction production software G-Verify
- Explanation Verify System and measurement principles
- Used hardware
- Presentation of the most important used measurement algorithms
- Troubleshooting incl. the topics re-positioning of a sensor and PC exchange (theory)

### Maintenance Training:

- Short summary of the basic training
- Sensor exchange (practical)
- PC exchange (practical)

### Expertenschulung:

- Short summary of the basic training
- Commissioning
- Process characteristics
- Introduction analyzing software G-Analyzer (if available)
- Introduction configuration software Maestro
- Parametrization of image processing with Maestro with examples
- Practical exercises at the system
- Troubleshooting
- Open questions on the Inos-System

**Training content can be adjusted according to customer needs or system requirements.**
