

Responsibility and sustainability have
many faces at Grenzebach

Preface

The Grenzebach Group is an internationally acting corporate group which has always been characterized by a strong cohesion and a sense of responsibility. Our company philosophy is based on our corporate values. In accordance with our values, we act responsibly, respectfully, sustainably, reliably and quality-consciously. Our actions are shaped by this value-oriented and fair thinking which is deeply rooted in our corporate culture. It is the foundation and guideline of our working methods, communication, interaction with one another, and of our success.

"Be Grenzebach" – our code of values – is mirrored in our mission statement and the corporate culture of our group and shows how we comply with our economic, ethical, and legal responsibility in our everyday work. This is supported, among other things, by our integrated management system (IMS), in which certified processes accompany and document our thinking and actions across the globe. The personal and unique fingerprint of our employees, who, with passion and commitment, give their best every day, is what breathes new life into our company.

The Grenzebach Group is aware of their ethical, social, and legal responsibility. In this Code of Conduct we set out binding values, beliefs, guidelines and measures that not only serve as pointers, but are actively practiced in our group. Our set principles and values are binding for our employees across all sites and business units worldwide. We expect our suppliers and business partners to respect our corporate philosophy, comply with the standards and guidelines of the code, demonstrate zero tolerance and work to ensure compliance also by their business partners as well as along the supply chain.

The entire executive management, the Grenzebach family, and all employees stand behind our Code of Conduct and actively support its implementation.

Corporate culture and employees

The Grenzebach Group is driven by its unique corporate culture. Our employees are our most valuable asset and are utmost appreciated. The Grenzebach Group would not be what it is without them, they are our core and driving force. Their protection and well-being is of dearest importance to us and has highest priority.

Occupational safety, sustainable health management and a pleasant, supportive, inclusive work environment are key components of our culture. As diverse as we participate as people in the joint work of the Grenzebach Group, as straightforwardly and uniformly do we treat one another and act within our corporate culture in accordance with our "Be Grenzebach"-values: quality-conscious, responsible, appreciative, sustainable, and reliable. Our integrity, our moral actions, as well as our corporate culture let the trust in us grow and strengthens us as an internationally active corporate group.

WE OFFER FAIR WORKING CONDITIONS AND VARIOUS POSSIBILITIES FOR DEVELOPMENT

Each employee is a significant part of the success of the Grenzebach Group. We know that a sustainable working environment and positive atmosphere are cornerstones of friendly cooperation among colleagues, a high level of contentment and our employees' efficiency. Therefore, we place particular emphasis on the individual, personal and professional development of our employees and the sustainable working conditions associated with this.

WE VALUE DIVERSITY AND FOSTER INCLUSION

Our strength stems from the individuality and diversity of our employees that drive our global corporate group forward. We live an open culture of inclusion and acceptance and encourage possibilities for diverse development, gathering of experiences, and interaction to include different insights, mindsets, and competencies. We see the diversity of our employees as an opportunity because people are diverse. They are distinguished by a wide variety of competencies, skills, backgrounds, ideas, and mindsets that can influence a company in many ways and contribute to its success.

The **well-being** of our employees is as important to us as a positive **working environment** without discrimination. We value **diversity** and respect the dignity of our fellow people. We provide the highest possible level of **occupational safety** on our sites.

WE OFFER EQUAL OPPORTUNITIES

The Grenzebach Group promotes equal opportunities for all employees and applicants, regardless of their gender, age, origin, skin color, religion, culture, physical and/ or mental impairment or other characteristics. At all levels, we assess objectively as well as close to the situation and provide training and further development. We value the diversity of our fellow people. We objectively decide on matters and professional developments based on the skills and performance of the individual employee.

WE DO NOT TOLERATE ANY FORM OF DISCRIMINATION

Respectful, trusting, and open interaction at work are important to us. We at Grenzebach will not tolerate any kind of behavior that violates the dignity of the individual, is discriminatory, harassing, threatening, or offensive in any way.

WE PROVIDE PROTECTION AT THE WORKPLACE

Occupational safety rules and protective measures for all employees and workplaces within Grenzebach comply with strict safety regulations. We adhere to legal requirements at all our sites, such as national occupational health and safety and fire protection laws and

respect the required and common recommendations in the industry. In addition, we document our procedures and processes.

Grenzebach promotes and expects ergonomic workplaces as well as secure work areas at all of our locations. This not only reduces the risk of accidents, but also ensures flawless operation and the trust of our employees and customers.

WE PROMOTE HEALTH MANAGEMENT IN THE COMPANY

Grenzebach creates and promotes measures and offers regarding health and health management of our employees, and also offers additional occupational medical examinations by company medical services.

WE RESPECT THE FREEDOM OF ASSOCIATION

We respect the right of all employees to form and join trade unions and employee representative bodies, as governed by local laws and circumstances. Where such right is limited by local law, alternative means of employee representation that comply with the law shall be encouraged.

Sustainability and social integrity

Sustainability is an integral part of our Grenzebach DNA. Ecological thinking and social behavior go hand in hand with the economic success of our corporate group. Inventiveness and the responsible use of environmentally friendly and energy-saving resources determine the entrepreneurial activities of our group. We have been setting standards with both economical and ecological production and automation solutions for years. In doing so, we are supporting our customers' aspirations for greater sustainability.

We integrate sustainability and economic efficiency actively in our business activities. Thus, our striving for economic success is inseparably tied to our awareness of ecological and social responsibility. In doing so, we use our freedom responsibly – in line with our values, with society and with available resources. We are approaching technological progress from a sustainable perspective from the very start and have been actively involved in social issues for decades.

WE FOSTER A RESPECTFUL ATTITUDE TOWARDS OUR ENVIRONMENT

Protecting the environment and reducing environmental risks are important topics for the Grenzebach Group because respecting the environment and natural resources sustainably contributes towards our company's and the society's success. We are mindful of the careful and sustainable use of the resources we require. We develop processes, products, and solutions to act in a resource-saving and ecological manner. We comply with national and international laws and standards for environmental and climate protection and have set ourselves the goal of further reducing the impact on our environment in all companies and business units by implementing innovative solutions and continuously improving environmental protection.

Sustainable thinking and acting are mirrored in our processes and products and show that we always think a step ahead: we seek to improve the impact of our group of companies on the environment worldwide and at the same time keep it as small as possible.

We stand up for **responsible** relations with our fellow people and our **environment**. Human rights are a self-evident matter for us, we promote **sustainability** and support social projects.

WE PAY ATTENTION TO SUSTAINABILITY IN OUR SUPPLY CHAINS

Along our entire value chain, we assess and implement improvements to the sustainability of our supply chains to make each individual product and the group itself more climate friendly. From our manufacturing, resource procurement, including the prevention and use of conflict materials, transport routes and disposal to renewable power supplies, building technology and even more areas, the Grenzebach Group has already taken efficient and environmentally friendly measures. And we are already thinking about the future: The guidelines are implemented and continuously improved to be even more sustainable.

We pay attention to not deliberately endanger the environment and human rights with our supply chains and to take that responsibility. We therefore support resilient and sustainable supply chains and ask our suppliers to also assume this responsibility.

WE RESPECT AND PROTECT HUMAN RIGHTS AND FAIR WORKING CONDITIONS

The Grenzebach Group feels co-responsible for implementing human rights. In all business units and associated companies, we are therefore strongly committed to respecting and protecting these rights.
